TO THE OBJECTIVE

The background features a dark grey to black gradient. On the left side, there are several sets of concentric circles in varying shades of grey, creating a ripple effect. A prominent feature is a red spiral that starts near the center and winds outwards, overlapping the grey circles. The text is positioned in the upper right quadrant.

**.ENERGY
& MENTAL**

ENERGY & MENTAL

Our new range of drinkable products .357Phyto® is the most comfortable and the quickest way to consume high-quality vegetable extracts thanks to monodoses, shots titrated in quality active ingredients the effectiveness of which has been demonstrated.

ENERGY & MENTAL shots are a synergy of extracts of maximum efficiency which increase vitality and energy and improve memory and attention-span.

A shot of ENERGY & MENTAL contains: organic forest honey, acerola extract standardised to contain 25 % vitamin C, guarana extract standardised to contain 18% caffeine, royal jelly, American ginseng extract standardised to contain 10% in ginsenosides and ginkgo extract standardised to contain 24% in glucosides of flavonol and 6% terpenic lactones.

The American ginseng extract Cereboost™ and ginkgo improve cognitive functions and mood due to the action of their bioactive ginsenoside molecules, terpenic lactones and glucosides of flavonol.

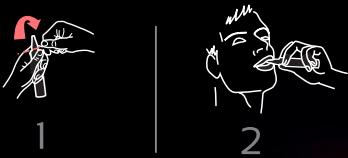

Organic forest honey and organic royal jelly provide energy and are rich in antioxidants. Guarana seeds increase strength and vitality thanks to their caffeine.

Acerola, a natural source of vitamin C, provides 100% of the NRVs* of this vitamin which helps to reduce tiredness and fatigue.

*NRVs: Nutrient Reference Values.

The background features a large black circle with concentric rings in the top-left corner. The rest of the background is composed of several overlapping, diagonal slices of watermelon, showing the red flesh and black seeds. The text ".CLIMAX" is centered horizontally across the watermelon slices.

.CLIMAX

.CLIMAX

CLIMAX pleasure shot drink

Our new range of .357Phyto® drinks are the quickest and most convenient way to consume the highest-quality vegetable extracts thanks to their monodose format. Shots of extracts titrated in active ingredients of proven quality and effectiveness.

Our CLIMAX shot combines the most effective extracts for improving male and female sexual activity.

A CLIMAX shot contains: organic forest honey, watermelon extract standardised to contain 10% in L-citrulline, extract of beetroot, extract of acerola standardised to contain 25% in vitamin C and extract of pomegranate standardised to contain 40% in ellagitannins.

Watermelon and beetroot cause an increase in nitric oxide, a molecule implied in vasodilatation, improving blood flow towards the penis and vagina.

Organic forest honey, rich in antioxidants and energy, combined with acerola, which offers 100% vitamin C NRVs* (80 mg), contributes to reducing fatigue and improving sperm quality.

Pomegranate, fruit of fertility, is rich in antioxidants and helps treat erectile dysfunction and the menopause.

*NRVs: Nutrient Reference Values.

.BITTER PLANTS

.BITTER PLANTS

Our .357Phyto® energy drinks offer the quickest and most convenient way to consume higher quality plant extracts, through single dose shots of extracts with standardised high quality active principle content proven to be effective.

We have incorporated **BITTER PLANTS** shots into the .357Phyto® range, offering a combination of fructooligosaccharides and plant extracts of optimum quality and effectiveness for losing weight and cleansing the body.

One **BITTER PLANTS** shot contains: fructooligosaccharides (Actilight®), dry extract of artichoke leaf standardised to contain 5% cynarine, dry extract of green tea leaves standardised to contain 50% polyphenols, 20% catechins

and 7% epigallocatechin gallate (EGCG), dry extract of green coffee beans (Svetol®) standardised to contain 50% polyphenols, and dry extract of milk thistle seed standardised to contain 80% silymarin.

Fructooligosaccharides are a fibre that aids weight loss by increasing feelings of fullness, reducing food intake.

Green tea and extract of Svetol® green coffee help to burn fat, thanks to their thermogenic and glucose absorption-reducing effect, enhancing the slimming properties of **BITTER PLANTS**.

Artichoke and milk thistle are plants with hepatoprotective, cleansing and digestive properties. Their respective cynarine and silymarin content guarantees optimum effectiveness.
